Section 2: EX-99.1 (EXHIBIT 99.1)

Exhibit 99.1

ONEMAIN HOLDINGS, INC. REPORTS FOURTH QUARTER 2017 RESULTS

4Q 2017 GAAP diluted EPS of \$0.29, including estimated tax impacts of \$0.60 per diluted share
4Q 2017 C&I adjusted EPS of \$1.06

Evansville, IN, February 14, 2018 - OneMain Holdings, Inc. (NYSE: OMF) today reported pretax income of \$187 million and net income of \$39 million for the fourth quarter of 2017, compared to \$29 million and \$27 million, respectively, in the prior year quarter. Net income for the fourth quarter of 2017 included approximately \$81 million of additional tax expense, primarily reflecting the re-measurement of our deferred tax asset due to tax reform. Earnings per diluted share were \$0.29 in the fourth quarter of 2017, compared to \$0.20 in the prior year quarter.

Net income was \$183 million for the full year of 2017, which included the aforementioned additional tax expense due to tax reform, compared to net income attributable to OneMain Holdings, Inc. of \$215 million in the prior year. Earnings per diluted share were \$1.35 for the full year of 2017, compared to \$1.59 in the prior year.

“We delivered a very strong performance in the fourth quarter of 2017,” said Jay Levine, President and CEO of OneMain Holdings, Inc. “The fundamentals of our business remained strong, highlighted by steady receivables growth, a greater mix of secured lending, improved credit performance, and lower tangible leverage. We look forward to building on this strong foundation in 2018.”

Consumer and Insurance Segment (“C&I”)⁽¹⁾

C&I generated adjusted pretax income of \$229 million and adjusted net income of \$144 million for the fourth quarter of 2017, compared to \$175 million and \$108 million, respectively, in the prior year quarter. Adjusted earnings per diluted share were \$1.06 for the fourth quarter of 2017, compared to \$0.80 in the prior year quarter.

C&I generated adjusted net income of \$480 million for the full year of 2017, compared to \$486 million in the prior year. Adjusted earnings per diluted share were \$3.54 for the full year of 2017, compared to \$3.60 in the prior year.

Originations totaled \$3.1 billion in the fourth quarter of 2017, up 34% from \$2.3 billion in the prior year quarter. The percentage of

secured originations was 44% in the fourth quarter of 2017, consistent with the prior year.

Ending net finance receivables reached \$14.8 billion at December 31, 2017, up 10% from \$13.5 billion in the prior year. Average net finance receivables reached \$14.6 billion in the fourth quarter of 2017, up 8% from \$13.5 billion in the prior year quarter.

Secured receivables represented 43% of ending net finance receivables at December 31, 2017, up from 36% in the prior year.

Interest income in the fourth quarter of 2017 was \$875 million, up from \$821 million in the prior year quarter, largely reflecting the impact of higher average receivables.

Yield was 23.8% in the fourth quarter of 2017, down from 24.3% in the prior year quarter, primarily reflecting the impact of a larger proportion of Direct Auto loans in the portfolio, which carry lower average interest rates but higher expected unit profitability.

Provision for loan losses was \$245 million in the fourth quarter of 2017, up from \$242 million in the prior year quarter.

The 30-89 day delinquency ratio was 2.4% at December 31, 2017, consistent with 2.4% at September 30, 2017, and up from 2.3% at December 31, 2016.

The 90+ day delinquency ratio was 2.3% at December 31, 2017, up seasonally from 2.1% at September 30, 2017, and down from 2.6% at December 31, 2016.

The net charge-off ratio was 6.4% in the fourth quarter of 2017, consistent with 6.4% in the third quarter of 2017, and down from 7.5% in the prior year quarter.

Acquisitions and Servicing Segment (“A&S”)⁽¹⁾

A&S broke even in the fourth quarter of 2017 on an adjusted pretax income basis, compared to \$2 million in adjusted pretax income in the prior year quarter.

Other⁽¹⁾

Beginning in 2017, management no longer views or manages our real estate assets as a separate operating segment. Therefore, we now include Real Estate, which was previously presented as a distinct reporting segment, in “Other.” During the fourth quarter of 2017, Other generated an adjusted pretax loss of \$7 million, compared to an adjusted pretax loss of \$7 million in the prior year quarter.

(1) Reported on a non-GAAP basis. Refer to the required reconciliations of non-GAAP to comparable GAAP measures at the end of this press release.

Liquidity and Capital Resources

As of December 31, 2017, we had \$987 million of cash and cash equivalents, which included \$242 million of cash and cash equivalents held at our regulated insurance subsidiaries or for other operating activities that is unavailable for general corporate purposes. We had undrawn revolving conduit facilities of \$5.1 billion and long-term debt of \$15.1 billion at December 31, 2017.

Use of Non-GAAP Financial Measures

We report the operating results of Consumer and Insurance, Acquisitions and Servicing, and Other using the Segment Accounting Basis, which (i) reflects our allocation methodologies for certain costs, primarily interest expense, loan loss reserves, and acquisition costs, to reflect the manner in which we assess our business results and (ii) excludes the impact of applying purchase accounting (eliminates premiums/discounts on our finance receivables and long-term debt at acquisition, as well as the amortization/accretion in future periods). Consumer and Insurance adjusted pretax income (loss), Consumer and Insurance adjusted net income (loss), Consumer and Insurance adjusted earnings (loss) per diluted share, Acquisitions and Servicing adjusted pretax income (loss), and Other adjusted pretax income (loss) are key performance measures used by management in evaluating the performance of our business. Consumer and Insurance adjusted pretax income (loss), Acquisitions and Servicing adjusted pretax income (loss), and Other adjusted pretax income (loss) represents income (loss) before income taxes on a Segment Accounting Basis and excludes acquisition-related transaction and integration expenses, net gain (loss) on sale of personal and real estate loans, net gain on sale of SpringCastle interests, SpringCastle transaction costs, losses resulting from repurchases and repayments of debt, debt refinance costs, net loss on liquidation of our United Kingdom subsidiary, and income attributable to non-controlling interests. Management believes these non-GAAP financial measures are useful in assessing the profitability of our segments and uses these non-GAAP financial measures in evaluating our operating performance and as a performance goal under the company's executive compensation programs. These non-GAAP financial measures should be considered supplemental to, but not as a substitute for or superior to, income (loss) before income taxes, net income, or other measures of financial performance prepared in accordance with GAAP.

reputation, financial position, results of operations or cash flows arising therefrom, any impact to our relationships with lenders, investors or other third parties attributable thereto, and the costs and effects of any breach of any representation, warranty or covenant under any of our contractual arrangements, including indentures or other financing arrangements or contracts, as a result of any such violation; the costs and effects of any fines, penalties, judgments, decrees, orders, inquiries, investigations, subpoenas, or enforcement or other proceedings of any governmental or quasi-governmental agency or authority and any litigation associated therewith; our continued ability to access the capital markets or the sufficiency of our current sources of funds to satisfy our cash flow requirements; our ability to comply with our debt covenants; our ability to generate sufficient cash to service all of our indebtedness; any material impairment or write-down of the value of our assets; the effects of any downgrade of our debt ratings by credit rating agencies, which could have a negative impact on our cost of and/or access to capital; our substantial indebtedness, which could prevent us from meeting our obligations under our debt instruments and limit our ability to react to changes in the economy or our industry, or our ability to incur additional borrowings; the impacts of our securitizations and borrowings; our ability to maintain sufficient capital levels in our regulated and unregulated subsidiaries; changes in accounting standards or tax policies and practices and the application of such new standards, policies and practices; changes in accounting principles and policies or changes in accounting estimates; effects of the acquisition of Fortress Investment Group LLC by an affiliate of SoftBank Group Corp.; effects, if any, of the contemplated acquisition by an investor group of shares of our common stock beneficially owned by Fortress Investment Group LLC and its affiliates; any failure or inability to achieve the SpringCastle Portfolio performance requirements set forth in the SpringCastle Interests Sale purchase agreement; the effect of future sales of our remaining portfolio of real estate loans and the transfer of servicing of these loans, including the environmental liability and costs for damage caused by hazardous waste if a real estate loan goes into default; and other risks and uncertainties described in the “Risk Factors” and “Management’s Discussion and Analysis” sections of the Company’s most recent Form 10-K and Form 10-Qs filed with the SEC and in the Company’s other filings with the SEC from time to time. The foregoing list of factors that could cause actual results, performance, or achievements to differ materially from those expressed in or implied by forward-looking statements does not purport to be complete and new factors, risks and uncertainties may arise in the future that are impossible for us to currently predict.
